Industrial Arts "Woodworking Shop"

This picture is characteristic of work that takes place in the shop during summer vacation, where students and instructors are employed alike in the construction of school furniture and equipment necessary for the following year.

Besides the woodworking shop, the industrial Arts Department also has a drafting room, and a general metals department. The general metals division was added this year and consists of machine shop and sheet metal.

Students can obtain through the Industrial Arts Department affiliated credits in the following: two units in woodwork, and two units in Mechanical Drawing. The $\frac{1}{2}$ unit in general metals is being applied for.

In the picture are from left to right: A. A. Golasinski, Senior High instructor; William Parks, Carroll Teague, Junior High instructor; George Davis, and Wayne Cargill.

A Girls Creed

I believe that the home is woman's natural environment. I believe that there is as much art in making a barren house into a glistening comfortable home as there is in painting a picture or in writing a poem.

I believe that there is dignity and beauty in service, that as a career for women, homemaking offers greater opportunity for leisure, for growth of mind and spirit, for exercise of the body, than any other occupation.

I believe that one who has the intelligence to keep her own house in order is wise enough to be a force in any community.

It is my desire to be one of the countless women of the world to make life sweeter and better because I live and do my work well.

Motto

"As our girlhood is now,
so shall our womanhood be."
