Organization Overview

There are two distinct types of organization units: (1) a campus organization unit which usually is a group of employees who are obligated to complete the responsibilities of the teaching of, supporting the teaching of and providing the necessary services to a set of students, and (2) an administrative or other organization unit which is a group of people who perform a specific responsibility as those in the superintendent's office, the school board or those who perform the business function for the school district.

This code usually indicates the ultimate beneficiary of the expenditure. (e.g. If the Title 1 grant administrator authorizes funds to be spent for the benefit of the students on campus 126, the expenditure will indicate an organization code of 126, not the Title 1 grant administrator's organization code.)

Accurate use of organization codes is essential for payroll under function 11, Instruction. School districts are to use organization codes in all functions when a cost is *clearly attributable* to a specific organization.

Program Intent Code Overview

These codes are used to account for the cost of instruction and other services that are directed toward a need of a specific set of students. The intent (the student group toward which the instructional or other service is directed) determines the program intent code, not the demographic makeup of the students served. In the case of state programs, state law may determine the intent and the permissible use of allotments.

Title I, Part A Schoolwide Activities Related to State Compensatory Education (SCE) and Other Costs on Campuses with 40% or More Educationally Disadvantaged Students

The SCE costs incurred to supplement federal awards for use on Title I, Part A school-wide campuses with at least 40% educationally disadvantaged students (including fund code 211) in the amount of the SCE allotment used to supplement federal awards. This program intent code is also used in the Special Revenue Fund for fiscal budgets approved in notice of grant awards (NOGA) for school-wide federal projects benefiting Title I, Part A school-wide campuses with at least 40% educationally disadvantaged students.

State law provides flexibility with the use of SCE funds on Title I, Part A campuses at which at least 40% of the students are educationally disadvantaged. SCE funds used to support a Title I, Part A program must be part of the campus budget and all SCE expenditures must be tracked back to the SCE fund code, and all generally accepted accounting principles must be followed. As with Title I funds, SCE funds used to upgrade the educational program must also meet the same guidelines required of NCLB in that SCE funds may only be used to incorporate instructional strategies that scientifically-based research has shown are effective with teaching low-achieving students.

SCE funds may be used on a Title I, Part A school-wide campus to upgrade the educational program where the actual poverty percentage of the campus is 40% or greater as long as the SCE funds allocated to the campus are supplemental to the costs of the regular education program. To determine a campus' poverty percentage, school districts will use the same auditable poverty data used for Title I, Part A for identifying Title I campuses in the NCLB Consolidated Application for Federal Funding, located on the Title I Campus Selection Schedule. The use of these funds must be described and evaluated in the school-wide campus improvement plan.

Although activities conducted with SCE funds may be used to support the Title I program, the campus must continue to receive its fair share of state and local funds for conducting the regular education program, and the intent and purpose of the SCE Program must still be met.

Program Intent Code 030 Costs to INCLUDE:	Program Intent Code 030 Costs to EXCLUDE (with Correct PIC):
<ul style="list-style-type: none"> • SEC costs incurred to provide services in support of Title I, Part A schoolwide campuses with 40% or greater educationally disadvantaged students • A comprehensive needs assessment of the entire school, including the needs of any migratory children in attendance; identify gaps between the status of the school and its vision of where it wants to be, relative to key indicators or focus areas. • Data obtained from the needs assessment provide the foundation for the goals of the comprehensive school-wide plan. 	<ul style="list-style-type: none"> • Basic and supplemental services at Non-Disciplinary Alternative Education Programs (AEPs) (PIC 026) and Disciplinary Alternative Education Programs (DAEPs) (PIC 028) • SCE costs incurred to provide supplemental services in support of a Title I, Part A targeted assistance program (PIC 024) • Day Care Cost (PIC 011) • In School Suspension Program (PIC 011) • Parenting Classes (PIC 011)

If the district meets certain college readiness and completion rate standards, there are less restrictions on how the funds are spent.

Since actual cash is not received, a debit entry is made simultaneously either to expenditure object code 6344, USDA Commodities (purchase method), or an asset code 1310, Inventory - Supplies and Materials (consumption method). For school districts that utilize the enterprise fund to account for the food service program, commodities are to be recorded in the non-operating revenue object code 7954, USDA Commodities. 6100 Payroll Costs

This major classification includes the gross salaries or wages and benefit costs for employee services. An employee is paid a salary or wage. Although an employee may work with more than one supervisor subsequent to, during, or after the normal employment period of hours, if the services or tasks performed are at the general direction of the school district, the amount paid to that employee is considered a payroll cost.

Activity Code Overview

An activity code is an extension to the general ledger code to assist the employees in separating the coding further to include grants and campus departments and student groups. The activity codes will replace your excel spreadsheet.

The format that was established:

Fund	Year	Responsibility	Department
865	14	001	CLAS

Fund - Must be the same fund as used in the general ledger code.

Year - The year of the graduating class or the grant year. **For campus department activity codes this portion may be '00' because the balance rolls over each school year.**

Responsibility - Must be the same responsibility code as used in the general ledger code.

Department - The student group or department indicator code.

Please see the Grant section in the Business Office Procedure Manual for the grant activity codes or contact the Grant Accountant that handles your grant.

Payroll Activity Code Overview

A change that was made in the Lawson system now requires the use of an activity code when entering payroll:

199 payroll – 199.00.999.PAYR

240 payroll – 240.00.999.PAYR

461 payroll – 461.00.RRR.DDD

Responsibility (RRR) – That is your campus code. Must be the same responsibility code as used in the general ledger code.

Department (DDD) - The student group or department indicator code.
