

YOUR FAMILY DESERVES A BETTER TOMORROW

CancerSelect® Plus cancer only indemnity insurance

CancerSelect® Plus Cancer only Indemnity Insurance is underwritten by **Transamerica Life Insurance Company**, Cedar Rapids, Iowa.

In the US, men have slightly less than a 1 in 2 lifetime risk of developing cancer, while the risk for women is a little more than 1 in 3.¹ Anyone can develop cancer, but can you help protect yourself and your family from the out-of-pocket costs associated with cancer treatment?

Good medical coverage helps, but is it enough?

While some individuals diagnosed with cancer have meaningful and adequate health insurance to cover most of the cost of treatment, an increasing number of privately insured workers face the prospect of crippling out-of-pocket costs, according to updated information from the National Cancer Institute. Those rising health care costs often leave both uninsured and individuals with insurance without the coverage they need – especially the 11 million Americans with cancer.²

If you or one of your family members were to be diagnosed with cancer, would you want to face those chances? Now there's a way you can add more benefits for you and your family.

If cancer is the disease you worry about most, you're not alone.

The financial costs of cancer care can be a burden to people diagnosed with cancer, their families, and society as a whole. National cancer care expenditures have been steadily increasing in the United States. Costs also are likely to increase as new, more advanced treatments are adopted as standards of care.³ With this supplemental benefit your employer is making available, you'll not only have more resources to cope with any future diagnosis of cancer, but you'll also have wellness benefits to help you detect cancer early when it's most treatable.

Policy form series CPCAN200 and CCCAN200. Forms may vary, coverage available where approved. This is a brief summary of CancerSelect Plus Group Cancer-only Insurance. Limitations and Exclusions apply. Please refer to the policy, certificate and riders for complete details.

This insurance pays you directly and is not reduced by other insurance.

While typical health insurance pays your doctor or hospital, this supplemental insurance pays you directly unless you assign benefits. Some benefits pay by the day or treatment, while others reimburse you for expenses you incur. Either way, it can be a source of financial support just when you and your family need it most!

You can cover only yourself or add your eligible spouse and children.

If you are 18 years old or more, you can purchase this valuable supplemental benefit. You can also choose to cover your eligible family members, including your spouse age 18 or older and your children from birth through age 25.

Valuable benefits for your life.

Review the attached benefits and costs for the insurance policy your employer has designed for your consideration. It's a long list of benefits, but they're all important. As you read through the list of all the ways this supplemental coverage pays, think about how you could possibly cover all these costs on your own. Fighting cancer can be challenging both financially and emotionally, and the more resources you have, the better prepared you and your family will be.

LIMITATIONS AND EXCLUSIONS

We provide benefits only for cancer as defined herein, which is positively diagnosed while coverage is in force. It does not provide benefits for any other illness or disease.

- We may reduce or deny a claim or void coverage for loss incurred by a covered person:
 - During the first 2 years from the effective date of such coverage for any misstatements in the application which would have materially affected our acceptance of the risk;
 - At any time for fraudulent misstatements in the application.
- We will only pay for loss as a direct result of cancer. Proof of positive diagnosis must be submitted to us for each new claim. We will not pay for any other disease or incapacity that has been caused, complicated, worsened or affected by, or as a result of cancer, except as specifically covered under the contract.
- If a covered hospital confinement is due to more than one covered condition, benefits will be payable as though the confinement or expense were due to one condition. If a hospital confinement or expense is also due to a disease or condition that is not covered, benefits will be payable only for the part of the hospital confinement or expense due to the covered disease or condition.
- Under no condition will we pay any benefits for losses or medical expenses incurred prior to the effective date.

Pre-Existing Condition Limitation - No benefits are provided during the first 12 months for pre-existing conditions for which the covered person has been diagnosed, treated, or for which the covered person has incurred expense or has taken medication within 12 months prior to the effective date of such person's coverage. Pre-existing condition also includes a condition that manifests itself in a way that would cause an ordinarily prudent person to seek medical advice, diagnosis, care or treatment.

Total Disability means the inability to perform all of the material and substantial duties of the employee's regular occupation. Total Disability will be considered to exist when under the regular care and attendance of a physician for the necessary treatment of cancer. After the first two years of Total Disability, the employee will continue to be considered Totally Disabled if unable to engage in any employment or occupation for which he or she is or becomes qualified by reason of education, training, or experience. On or after age 65, Total Disability will mean that a physician has certified that the employee is unable to perform two or more Activities of Daily Living (continence, transferring, dressing, toileting, eating and bathing) without direct personal assistance as a result of cancer.

12-Month Benefit Period - The initial 12-Month Benefit Period is the 12-month period beginning on the date of positive diagnosis. Subsequent 12-Month Benefit Periods begin on the same month and day as the immediately preceding 12-Month Benefit Period; however, if the covered person incurs no covered loss during the 3 months after the end of any 12-Month Benefit Period, the next 12-Month Benefit Period will begin on the next date a covered loss is incurred. Benefit Periods are determined separately for each covered person.

First Occurrence Rider
