No. 21075Motion by Mrs. Morgan, seconded by Mrs. Sullivan, that the Board approve
the contract with Perdue, Brandon, Fielder, Collins & Mott L.L.P. to provide
the Property Value Study Audit, Appeal Services, and Associated Legal
Counsel Services as presented, as shown on pages 324-327, Section VIII
of the agenda, and copied below.

For the past few years, Williams Data Services has handled our state property value appeals. Being successful in these appeals increases the amount of state funding to the District. Some of the recent property value appeals have required some associated legal services that cannot be provided by Williams Data Services. Thus, we have researched this matter and the firm of Perdue, Brandon, Fielder, Collins & Mott L.L.P. has been very successful in this area. This firm is very knowledgeable and has a very respectable reputation with the Property Tax Division at the Comptroller of Public Accounts as well as with TEA.

The fee for the services, in include the associated legal counsel and representation when applicable, will be $7\frac{1}{2}$ percent of the additional revenue generated for the District.

We recommend approval of the contract with Perdue, Brandon, Fielder, Collins & Mott L.L.P. to provide the Property Value Study Audit, Appeal Services, and Associated Legal Counsel Services as presented.

Mrs. Sullivan asked if we contacted other groups.

Mrs. Zelda Cryar, Tax Assessor & Collector, stated that we have been

doing business with one company that has been providing the property value study because this is a very important part of ensuring that our state funding is at the very top level to make sure we have all the possible recourses in place. I wanted to push this a little bit further and have a firm that had expertise in the area of actually making sure that our property value studies are working appropriately and all the audits are being proposed just exactly right. We did not search any further than the two we have already had.

Williams Data prepared the audit but don't have any legal counsel behind them. The concern is we want to make sure we have all the resources available to us if the need arises. We don't have any pending situations at this moment; but that need to make sure we have counsel to back us is most important.

Mr. Roberts asked what the estimated value is on this. Do they think it is \$50,000 or \$100,000?

Mrs. Cryar stated that it all depends on where the concerns of the issues are. It could be that there is one category that may be questioned by the property tax division. If that is the case we don't know how high the value could be. We want to make sure that every time we have some kind of change to our taxable value, where litigation has maybe been brought against that value from taxpayers, that we are recording all that to the state so they can make those additions to our deductions and increase our state value.

Mr. John Piscacek added that when we appeal we will normally gain about half a million dollars in additional state aide.

Dr. Lewis pointed out that attorney and other professional services are not subject to the \$50,000 limit so this is not a bid issue.

Mrs. Sullivan questioned if on appraisals they start at a dollar amount over \$50,000 or over \$100,000.

Mrs. Cryar replied that it could be for any amount. We certainly want to make sure that for any value we start ending in our preliminary protest as soon as January but by July we may have had such drastic changes in the taxable value that we need to be able to recoup those deductions so we can begin our audits. We want to be sure that if there are any questions or concerns we have someone that can give us legal counsel on whether we are submitting the proper reports and getting the maximum amount of our dollars so we can make sure that the state funding is there.

Mrs. Sullivan inquired if we would start at something like \$10,000 or do we

have a limit to start reviewing?

Artist Boat for

2012-2013 School Year Mrs. Cryar answered that there is no limit. The state gives you three opportunities to come in and audit those numbers. What we do is continually monitor the numbers to see if they are going up or down. It is always a good step to make sure you are recording the audits. Whether there is any huge change just to make sure they are used to seeing the report. If you back off and don't do any audit at all then the state is going to ask how this happened. You need to really stay on top of those audits.

Dr. Lewis remarked that when they see a huge change and a small one they aren't going to exclude the small one.

Mrs. Cryar replied that there are no exclusions.

Mr. Roberts asked if this goes over \$50,000 will federal money pay for it.

Mr. John Piscacek replied that board policy says contracts in this area over \$50,000 must be approved by the Board. We anticipate going over the \$50,000 so we are asking for your approval.

Mr. Roberts asked how much over we think it will be.

Mr. Piscacek indicated that it would probably be \$10,000 to \$20,000 over.

Mr. Roberts commented that it is probably a great program but it is a lot of money not to know if it will go over \$10-\$20,000.

Dr. Lewis remarked that part of the issue is probably the source of the funding and where it is coming from. They go after these types of services to supply and support the 21 Century grants they are getting.

Mr. Roberts requested that in the future he would like an estimated value of what it might go over.

Mr. Bailey agreed that this is needed and also historical data and who is going to utilize it.

Mr. Piscacek added that most of these are being used with the big grants that went to Miller and Pomeroy. They are two year grants so it might not

be an issue next year.

Dr. Lewis explained that in the future if anything similar to this comes about and we think it will exceed \$50,000 we will try to give you an estimated amount of what it will be.

No. 21080 APPROVED Order Authorizing The Issuance of PISD Unlimited Tax School Building and/or Refunding Bonds in One or More Series: Setting Certain Parameters for the Bonds: Authorizing a **Pricing Officer** to Approve the Amount. Motion by Mrs. Sullivan, seconded by Mrs. Morgan, that the Board approve Of An Order Authorizing The Issuance Of Pasadena Independent School District Unlimited Tax School Building and/or Refunding Bonds In One Or More Series; Setting Certain Parameters For The Bonds; Authorizing A Pricing Officer To Approve The Amount, The Interest Rate, Price, Including The Terms Thereof And Certain Other Procedures And Provisions Related Thereto, as shown on pages 332-333, Section VIII of the agenda, and copied below.

The District is planning to issue its Unlimited Tax School Building Bonds in the amount of \$173,690,000 which will be the final installment of the \$270.1 million authorization approved in the November 2011 election. Also, if certain savings thresholds are achieved, an amount not to exceed \$121,000,000 will be refunded for current outstanding sold bonds.

In connection with the issuance of these bonds, Section 1207.007, Texas Government Code, as amended, authorizes the District's Board of Trustees (the "Board") to delegate the sale of the Bonds to an officer or employee of the District, subject to the establishment of the parameters within which the Bonds may be sold. The District's Financial Advisor, BOCS, Inc. (the "Financial Advisor"), has advised the District that authorization of parameter authority and delegation of the sale of the Bonds to an officer or employee of the District is appropriate because volatile market conditions may require sale of the Bonds more quickly than the 72 hour period required to notice and hold a Board meeting. The Financial Advisor therefore recommends that the sale of the Bonds be delegated to a pricing officer subject to the following sale parameters:

- 1. The remaining maximum principal amount of the Bonds out of the voted authorization will not exceed \$173.690 million.
- 2. The refunding bonds will not exceed \$121 million.
- 3. The refunded bonds must result in a net present value savings of at least 3%.
- 4. Authorized pricing officers ("Pricing Officers") to whom sale of the

Bonds will be delegated are the Superintendent of Schools and Associate Superintendent for Finance.

5. The authority delegated to the Pricing officers will be valid for one year after the official Board action authorizing the delegation.

Our Financial Advisor and Bond Counsel will be at the meeting to answer any questions and assist in this matter.

After this sale, the debt service tax rate is anticipated to remain at 28¢ for the 2013-2014 school year.

We recommend Approval Of An Order Authorizing The Issuance Of Pasadena Independent School District Unlimited Tax School Building and/or Refunding Bonds In One Or More Series; Setting Certain Parameters For The Bonds; Authorizing A Pricing Officer To Approve The Amount, The Interest Rate, Price, Including The Terms Thereof And Certain Other Procedures And Provisions Related Thereto.

No. 21081 APPROVED Athletic Facilities Lease Agreement with Agreement with

University of

School

For the past several years, the five comprehensive high schools in the Pasadena Independent School District have conducted commencement exercises at the Hofheinz Pavilion at the University of Houston.

Graduation The Facilities Lease Agreement with the University of Houston will allow the District to continue that tradition for graduation ceremonies on June 7, 2013. Terms of the lease agreement allow access onto the site beginning at 6:00 a.m. through 10:00 p.m. that day.

Cost of the lease agreement is approximately \$85,000 to be paid with budgeted funds.

We recommend approval of the Facilities Lease Agreement with the University of Houston for the 2013 Pasadena Independent School District high school graduation ceremonies.

Mr. Roberts inquired on how crowded we thought this graduation would be.

Dr. Lewis answered that we anticipate it being as crowded as last year if not more so.

Dr. DeeAnn Powell shared that Dobie is anticipating 795 in their graduating class.

Dr. Lewis added that we are exploring options of requiring tickets this year to get in. We are also looking at video streaming back to the campus or to homes to allow people to not attend if they don't want to and still be able to see the graduation.

Mrs. Morgan commented that this would be great for grandparents and older people.

Mrs. Sullivan added that they could probably see better than a lot of people at Hofheinz.

Dr. Troy McCarley clarified that due to renovations at Hofheinz we have to utilize their parking garage at an added expense. We are renting 1200 spots to help accommodate our parents because some of the parking we have used in the past is not available due to construction.

Mrs. Morgan asked if the parking is included in the \$85,000.

Dr. McCarley answered that it is included. The \$85,000 cost is about \$10,000 higher this year. \$6,000 for parking, \$1,000 for renting their electronic message boards throughout the U of H Complex to direct parents to the site location and instructions for parking, and there is an increase for the Fire Marshall also.

Under this agreement Region 4 will conduct an audit of PISD Route

Services Reports, as part of its TransAudit Program. The objective of the audit is to assist PISD in operating more efficient and economical bus routes.

No expenses charged. PISD agrees to pay Region 4 20% percent of the additional allotment received from the State Foundation School Program Fund for eligible student transportation, in which the difference is between one dollar and five hundred thousand dollars, for each audited year.

Funding of \$33,350,000 is provided under the 2011 Bond Program for the CTE High School project and additional funding in the amount of \$3,800,000 is provided by the fund balance.

We recommend that the Board of Trustees approve the Construction Contract to DYAD Construction, L.P. for the CTE High School project in the amount of \$37,150,000 including additional funding of \$3,800,000.

Dr. Lewis stated that we are asking for a significant contribution from fund balance for this project as we discussed at our last meeting. Early projects with this bond including the technology pieces, stadium parking lot, initial facility assessment packages, Queens IS and South Houston ES all came in at or below budget. Since that time the Veteran's Stadium, Rayburn HS and South Houston HS gyms, Tegeler and CTE projects and the Keller project have all come in over budget and some significantly over budget. Combined they total about \$7 million which is the significant pay-as-you-go investment we are asking you to make. Our fund balance is healthy even with these reductions as the audit statement shows you. We are ok in terms of what we are doing with the fund balance and how it has been designated in the past for us to use. We have done some research on the trend the new projects are taking. We have come up with a plan for the future that might help us mitigate the need to continually draw from the fund balance on these projects. We are looking at trying to clear up some bond money and put in a bond pool that we can draw from in case these future projects come in over budget. We think we will have about \$1.5 million from the Technology monies, after buying everything in the project that was promised, that can go into the bond pool. We have taken the two facility assessment packages and done a prioritization of those projects and kept the things that were very important to us like roofs, HCAD systems and the elementary gyms that were a major portion of what we had talked to the public about. We've kept those in the project and then taken some of the minor things out of that project such as system controls and outdoor lighting. That would be about \$4.5-\$5 million that would go into the bond pool. This \$6 million would be a cushion for any of the major projects if they do come in over budget. Toward the end of the bond we will reanalyze what we've got. Any savings we have made or if we haven't had to spend all of it, we will start putting it back into these two projects to make sure we get as much as we can for what we promised. That is the

recommendation I will bring to you at a future board meeting because I think it is the best answer to an uncertain future on the cost of these things to keep from continually coming back to fund balance. I can't promise but I think the \$6 million will get us a long way down the road. They may be over budget but at least they will be within the bond funding parameters that we've got.

Mrs. Sullivan asked if the \$4 million saved, mentioned when they gave the bond presentation, would go back into other bond projects.

Dr. Lewis explained that his recommendation would be to use it to offset future bond costs. I'd rather preserve that for future needs than to try to roll it back into this and I'm not even sure you can.

Mrs. Sullivan asked if Keller is the next middle school coming up.

Dr. Lewis answered that Keller has been bid and will probably come to you in February. The bid came in over and we are doing some value negotiations with the contractor at this point and looking at a couple of other options to see if some design changes would help us reduce the overage on that project. That would be the last project that I'm asking out of fund balance and the others would be from the bond pool if y'all are agreeable in creating it.

Mr. Roberts asked how far over budget we are on the Keller project.

Mr. Kevin Fornof replied that we are \$2.3 million over for value engineering but are hoping to get that down.

Mr. Kendrick commented that everything is coming in over about that much right now.

Mr. Roberts asked if we are over designing these buildings.

Mrs. Morgan asked if Calvin Powitzsky, Bay-IBI Architects, could share the response he had given her on this subject.

Mr. Powitzsky explained that commercial construction has exploded. Steel has flattened out but concrete is jumping, copper keeps going up every year, and sheetrock is going up 10-20%. All labor is going up because everybody is getting busy or has left the industry.

Dr. Lewis remarked that in response to Mr. Roberts question regarding whether we are designing differently under this bond than we have in the past; design standards we are using are essentially unchanged from the last bond. We have done an analysis of that and there is no significant difference in what we are asking for in terms of materials on the projects. The CTE is a vastly different design than we have ever done before on anything so it could be a little bit different. We are still using the same finishes, the same tile, etc.

Mr. Powitzsky added that it is a very expensive school to design. We looked at three in Dallas that have been done in the last five years or less and they were \$250 to \$220 a square foot while ours is \$149 a square foot. We did a lot of things to keep the cost down. The land had a lot of problems as y'all know. We all have to understand with our urban environment, as we see less and less land, more and more of that land has defects in it that you are going to have to pay to fix and we see that everywhere we go. Also, the energy sector is huge right now and is soaking up people and materials.

Mr. Roberts mentioned that as far as the design part of things goes, we may not be able to build things such as glass walls in the future. The mission is to educate kids.

Dr. Lewis added that we try to build nice but not extravagant facilities. With the CTE facility we did want to make a statement so it is different from a traditional campus. We are trying to do everything we can to mitigate the higher costs but I have the sense that we are going to be lucky to be on budget with the future projects. I felt we needed to do something internally to try and address it. Right now we do not have a provision for a bond pool and I wanted to make an official recommendation at the next meeting to create one with your approval.

Mr. Speer expressed his concerns with including an expensive greenhouse at the CTE High School and asked that they investigate and speak to the principals at Dobie and PMHS to see if their greenhouses are being utilized to the fullest extent.

Mrs. Morgan added that a lot is up to the teacher in the programs. If you look at ROTC and AG programs in the district some thrive and some don't. I believe the kids that are going to go to the new CTE High School are going to be focused.

Mr. Speer inquired if our Operations and Maintenance Departments could build the walking trail and exercise station cheaper than \$217,000.

Dr. Lewis responded that he would look into it but this is a bigger job than we usually do since this will be the major PE facility for that campus.

Dr. Lewis pointed out that the horticulture class at the CTE High School would be consolidating all the smaller ones in that area. This will bring

those kids interested in horticulture from every campus and I believe they will have a larger program with a larger opportunity to use it.

Mr. Steve Fleming, CTE High School principal, added that the greenhouse will also be used by their Culinary Arts program.

Mr. Roberts stated that the principal has to inspire the teacher to their job if they aren't doing it. You can't use this as a dump class.

Mrs. Sullivan remarked that we have been conservative with our buildings but they look nice and provide instruction for our students. It is that thought and planning that has lead this community to continue to pass bond issues to allow us to continue to keep the facilities in this district the type to provide the very best education for the kids.

Mr. Fornof explained that they have known about the budget issues on these designs for a long time and have been working to address the concerns to get the project within budget. There are alternates we could take out of the project to get the budget back in line but would be a major sacrifice to the programs. We are thankful and fortunate that our board is willing to move forward with this and not sacrifice the programs.

Mr. Bailey questioned the Traine chillers for \$2.4 million.

Mr. Fornof explained that some contractors will use the alternates to make up some differences in their original base bid. It really does not reflect anything at all on the chillers themselves.

Mrs. Morgan mentioned that it is our job to educate kids but we also want our kids to take pride in the school they attend. I think we have done a good job of being cognizant of the budget and provide the things kids can take pride in and want to go to school every day. I really feel kids buy in is important.

Mr. Kendrick added he believes our community is proud of our schools. You can go into our older schools and they still look good because they take pride in them.

No. 21086 Motion by Mrs. Morgan, seconded by Mr. Bailey, that the Board approve to opt into the lawsuit, as shown on page 340, Section XI of the agenda, and copied below.

The District received notice through Express Scripts of a proposed settlement of a class action lawsuit filed against AstraZeneca AB, AstraZeneca AP, AstraZeneca Pharmaceuticals LP and Aktibolaget Hassle ('AZ') involving the drug Toprol XL and its generic, metoprolol succinate. The lawsuit, In re: Metoprolol Succinate End-Payor Antitrust Litigation, 06-cv-71, pending in the US District Court for the District of Delaware, alleges that AZ used patient filings and lawsuits against its competitors to stop them from selling a low-cost generic version of AZ's prescription drug, Toprol XL. The lawsuit claims this conduct violated federal and state antitrust laws and consumer protection laws by delaying the entry into the market of low cost generic versions of Toprol XL. AZ denies these claims, but has agreed to pay up to \$11 million into a settlement fund to avoid further expense and the burden of litigation.

The District has an opportunity to opt into the settlement and there by relinquish any claim it may have relating to this suit or it can opt out and

retain those rights but receive no part of the settlement. During the time period in which this activity allegedly occurred the District paid \$11,739.32 in costs for the drug in guestion. It is unclear at this time if the settlement amount would total that cost to the District. If the District opts out it would have to file suit in federal court in order to collect on the claim should it prevail. If District opts in it would collect a portion of the settlement. If opting out there would be no financial implication unless it decided to pursue its own action. There is no financial obligation if the District opts in. Opt into the lawsuit Yeas Trustee Kendrick, Bailey, Roberts, Quijano-Lerma, Morgan, Sullivan, Speer Noes None No. 21087 Motion by Mrs. Morgan, seconded by Mr. Bailey, that the Board approve the Election Order and Notice for the 2013 Pasadena Independent School APPROVED District Trustee Election, as shown on pages 341-349, Section XI of the Election Order and Notice for agenda. the 2013 Pasadena A copy is included in the permanent records. SUBJECT:	Network Electronics (ERATE), RFP #13-020
BACKGROUND:	In accordance with state bid laws, legal notices were published in the Houston Chronicle. In addition, RFP was also posted through Erate SLD 470 posting services.
	For E-Rate Year 16 (2013-2014), PISD has filed and received RFP responses for E-rate eligible services applicable to district and based on the district approved technology plan. This process allows us the opportunity to file for E-rate assistance and potentially save district substantial costs. Upon approval from E- rate and notification of funding levels, PISD will evaluate local funding sources available for final decision.
	Descent allows district to discuss and consider

Proposal allows district to discuss and consider installation of network electronics to provide district wide services and utilize e-rate funding to help subsidize these internal connection costs.

All proposals have been reviewed and tabulated. Vendors have been selected according to documented evaluation criteria to provide best value to the district as they received the most number of points using the evaluation criteria.

FINANCIAL IMPLICATIONS: All services applied for would be covered fully through planned district budget funds, or potential grant funds accordingly. This process secures the opportunity to receive additional savings to district for these specific services. Estimated local funds, upon final Board approval at later date, for contract period July 1, 2013 – June 30, 2016 would be approximately as follows:

RFP 13-020	Provider	District Cost	Erate Funds	Total
Electronics	Presidio/INX	\$2,237,475	\$8,889,659.00	\$11,127,134.00

- RECOMMENDATION: It is recommended that the Board of Trustees award the proposal for Network Electronics to Presidio/INX. The estimated award amount is described in the Financial Implications section of this request.

BACKGROUND: Google awarded a grant to DonorsChoose.org and College Board to increase the number of traditionally underrepresented minority and female high school students that participate in Advanced Placement courses in STEM (science, technology, engineering, and mathematics) disciplines (AP STEM Access program). Research shows that encouraging students with strong potential to participate in Advanced Placement math and science courses significantly increases their chances of pursuing related college and career paths.

> College Board identified three Pasadena High Schools, J. Frank Dobie HS, Pasadena HS, and Pasadena Memorial HS, qualify for funding to start new Advanced Placement math and/or science courses to help achieve the national goal of increasing the number and the diversity of students who are studying these disciplines. The schools had a population of underrepresented students that were academically prepared for rigorous course work in AP STEM as indicated by their high scores on the PSAT/NMSQT.

The School/District responsibilities are:

- Each high school will offer a new AP math or science course fall, 2013 and commit to following the responsibilities as outlined in the MOU
- Identify 10 or more minority students and/or 25 more female students with a 60 percent likelihood of success in an AP math or science course
- Identified teacher(s) who will teach the new course(s) and commit to attending professional development and to the implementation of the grant specifics.

If the school completes the requirements of the MOU, all teachers of the new AP STEM and pre-existing AP Stem courses in the school are eligible to receive a \$100 DonorsChoose.org gift card for every 3, 4, or 5 score any of their students achieve on the AP Exam. The gift card must be used to acquire additional classroom resources (lab equipment, textbooks, science materials, calculators, etc.)

FINANCIAL IMPLICATIONS: Teaching section, possible classroom supplies (not supplied by the grant)

RECOMMENDATION: Acceptance of the MOU with the College Board

SUBJECT: Consideration and possible approval of the transfer of bond funds to the 2011 Bond Contingency Pool.

BACKGROUND: Many of the 2011 Bond Program projects have exceeded the construction budgets and have required additional funding by the district's fund balance. In order to alleviate the need for funding outside of the Bond Program we are proposing the establishment of the 2011 Bond Contingency Pool. The majority of the initial contribution would come from the Facility Assessment Project with an assigned budget of \$18.5 million. Many portions of the assessments have been approved by the Board and have been completed to date comprising approximately \$3 million. Assessment A and B projects consisting of high priority needs such as roofing, renovations to 7 elementary school gymnasiums and renovation of 2 cafeterias is nearing the bidding phase in March with a combined budget of \$8,535,400. The remainder of the assessment projects would be completed either by the Facilities & Construction Department or by future proceeds of the Bond Contingency Pool.

> The technology funding allocation of the 2011 Bond Program is also able to contribute savings to the Bond Pool through efficient procurement of services and equipment.

Available funds are as follows:

- Facility Assessment Project: \$5,000,000
- Technology Bond Funding: \$1,500,000
- Total Bond Pool Contingency: \$6,500,000

FINANCIAL IMPLICATIONS: None

- RECOMMENDATION: We recommend that the Board of Trustees approve the transfer of funds from the 2011 Bond Program for Facility Assessment Projects in the amount of \$5,000,000 and Technology funding in the amount of \$1,500,000 for the establishment of the 2011 Bond Contingency Pool of \$6,500,000.

SUBJECT:	Consideration and possible approval of a contract for project management services.
BACKGROUND:	The 2011 Bond Program Project Management Team requires the services of an Assistant Project Manager to relieve the load on the present team of three Project Managers. Bay-IBI Group Architects has proposed the services of Brian Hanson to fill that need. The team has worked with the Mr. Hanson and is confident that he will be an effective addition to the team.
	PISD would fund the position in the amount of \$90,000 per year payable directly to Bay-IBI Group on the first of every month for a period of one year beginning March 1, 2013. Bay-IBI has guaranteed Mr. Hanson's availability for two years renewable annually on approval by PISD.
FINANCIAL IMPLICATIONS:	The amount of \$90,000 will be funded by the 2011 Bond Program allocation for Project Management.
